#### QUIETLY ENDED

Spanish-American War, Which Raged for Months, a Thing of the Past.

The War and Navy Departments Instruct the Commanders That the War is at an End-Peace Commissioners Will Be Appointed in a Few Days.

WASHINGTON, Aug. 13.-The president has issued the following proclamation:

By the President of the United States of

America.

A PROCLAMATION: Whereas, By a protocol concluded and signed August 12, 1898, by William R. Day, secre tary of state of the United States, and his excellency, Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington, respectively representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms upon which negotia-

tions for the establishment of peace between the two countries shall be undertaken; and, Whereas, It is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces.

Now, therefore, I, William McKinley, president of the United States, do in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States, a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the command-United States to abstain from all acts inconsistent with this proclamation.

In witness whereof I have hereunto set my hand and caused the seal of the United States

This was the first time that a protocol or treaty had been signed at the white house. As this ceremony concluded, Acting Secretary Allen, of the navy, Secretary Alger and Adjt. Gen. Corbin appeared, having been summoned to the white house by the president, and they were admitted into the cabinet room just in season to witness one of the most impressive features of the ceremony when the president requested the hand of the ambassador and through him returned thanks to the sister republic of France for the exercise of her good offices in bringing about peace. He also thanked the ambassador personally for the important part he has played in this matter and the latter replied in suitable terms. As a further mark of his disposition, President Mc-Kinley called for the proclamation which he had caused to be drawn up suspending hostilities and signed it

The pen which was used by Secretary Day in signing the protocol was given to Chief Clerk Michael, of the state department, who had bespoken it.

M. Thiebaut secured that used by the French ambassador.

Upon emerging from the white house Secretary Day received the earnest congratulations of the persons present upon the conclusion of the protocol. He stated that the peace commissioners who are to draw up the definitive treaty would not be appointed for several days, but declined to indicate who they would be.

As the order to military and naval commanders state further instructions will be sent to each general. Gen. Merritt will be directed to confer with the Spanish commandant at Manila to carry out the terms of the protocol, and to occupy Manila immediately. Gen. Miles will put himself in communication with the chief authority in Porto Rico for the ers of the military and naval forces of the purpose of having Spanish forces turn over San Juan and other points to him preparatory to evacuation. Owing to conditions in Cuba the orders to Gen Shafter to be sent hereafter will be much different than those to other generals. York Harbor Next Saturday Afternoon

WASHINGTON, Aug. 16.-Adm. Sampson, with the four big battle ships and two armored cruisers of his fleet, is now on his way north, having sailed at 10 o'clock Sunday morning from Santiago. Adm. Schley, on the Brooklyn, accompanied the fleet. The naval orders made public Monday give the Brooklyn as starting on the 11th from Playa to the south coast of Cuba. This, however, was prior to the orders issued on the suspension of hostilities, when the Brooklyn was included with other ships ordered north. The naval authorities expect the fleet at Thompkinsville the latter part of the week.

The navy department is considering the project of a naval review in New York harbor on next Saturday, when the battle ships and cruisers under Adm. Sampson arrive there. Efforts have been made to induce the department to have a review of the ships and a land review of the sailors. It is probable that the final decision will be to have the war vessels to go up the river to Grant's tomb at Riverside and there fire a salute, the trip up to the tomb affording the public a sufficient opportunity to view the ships, without tiring the

"DEAR MRS. PINKHAM:-It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valaable medicine

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstructions were very profuse, appearing every two weeks.

I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Componnd, and after taking two-thirds of the bottle I felt so much better that I send for two more. After using three bottles I felt as strong and well as any

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble.'

Railroad stories are all more or less pithy, pecially when told by railroad men. A Railroad stories are all more or less pithy, especially when told by railroad men. A certain system running in the southwest is known for its slow trains from one end of the line to the other. The trains are slow enough at best, but when washouts and overflows occur, time doubles up on engineer, train crew and passengers. Not long ago a flood of complaints was poured in upon the general manager of the line from all kinds of people who travel over this system. One of them came from a prominent undertaker, somewhere in an adjacent state, and this is what he wrote:

## A DOCTOR'S DIRECTIONS.

#### They save a daughter from blindness.

When a father writes that yours "is the best medicine in the world," you can allow something for seeming extravagance in the statement if you know that the medicine so praised, cured a loved daughter of disease and restored to her the eyesight zearly lost. The best medicine in the world for you is the medicine that cures you. There can't be snything better. No medicine can do more than cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

a common experience to have Dr. Ayer's Sarsaparilla prescribed by a physician. It is a common experience to see a "complete cure" follow the wse of a few bottles of this great blood purifying medicine. Because, it is a specific for all forms of blood disease. If a disease has its origin in bad or impure blood, Dr. Ayer's Sarsaparila, acting directly on the blood, removing its impurities and giving to it vitalizing energy, will promptly eradicate the disease.

better. No medicine can do more than cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

"Dr. Ayer's Sarsaparilla is the best medicine im the world. My daughter had a relapse after the measles, due to taking cold. She was nearly blind, and was obliged to remain in a dark room all the time. The doctors could give her no relief; one of them directed me to give her Ayer's Sarsaparilla. Two bottles cured her completely."

The thousands of festimonials to the value of Dr. Ayer's Sarsaparilla repeat over and over again, in one form or another the expression: "The doctors gave her no relief; one of them directed me to give her Dr. Ayer's Sarsaparilla. Two bottles completely cured her."

It is a common experience to try Dr. Ayer's Sarsaparilla as a last resort. It is

## HOMES IN **NEBRASKA**

If you think of changing your location remember this; Nebraska's soil is rich

and easily tilled. No rocks and stumps. All grains and fruits that succeed in other states in same latitude flourish there. The climate is well-nigh perfect, the air being dry and free from malaria. An abundance of pure water is found. It is a great state for stock raising and feeding. There is no state in the Union where a hard-working farmer can do so well. Thousands of poor men have become rich in Nebraska. Farms can now be bought on easy terms. Prices are low. A handsome illustrated pamphlet describing Nebraska will be sent free on application to P. S. EUSTIS, General Passenger Agent, Chicago.
